

Glass Fiber Tapes

Code:KXT GF203

Description

Kaxite is a specialized manufacturer and exporter on Glass Fiber Tape, Glass Fiber with Self-adhesive, Glass Fiber Tape with Aluminium, Glass Fiber Tape with Silicone Rubber, Glass Fiber Ladder Tape, Glass Fiber Tadpole Tape, Glass Fiber Tadpole Tape with Graphite, Glass Fiber Mesh Tape, etc.

Glass Fiber Tapes

Item no.:KXT GF203

Item no.:KXT GF203

Kaxite is a specialized manufacturer and exporter on Glass Fiber Tape, Glass Fiber with Self-adhesive, Glass Fiber Tape with Aluminium, Glass Fiber Tape with Silicone Rubber, Glass Fiber Ladder Tape, Glass Fiber Tadpole Tape, Glass Fiber Tadpole Tape with Graphite, Glass Fiber Mesh Tape, etc.

Range of Glass Fiber Tape:

Code	Name	Photo	Description
GF2031	E/C Glass Fiber Tape		<ol style="list-style-type: none"> 1.Braided with the E/C Glass Fiber; 2.Had good insulation and heat resistance; 3.Extensively apply to building, waterproof, antiseptic and wrapping up the coil of electrical machinery and electrical apparatus. 4.It is an excellent substitute for asbestos tape. 5.It can be with self-adhesive on one side; 6.Thickness: 0.8mm~5.0mm, width:20mm~300mm
GF2032	Glass Fiber with Aluminium		<ol style="list-style-type: none"> 1.The aluminium foil coated on the surface of fiberglass tape; 2.It is used as heat insulation materials; 3.Excellent substitute for asbestos tape; 4.Metallic wire reinforced are also available.
GF2033	Glass Fiber Tape with Silicone Rubber		<ol style="list-style-type: none"> 1.Texturized fiberglass tape coated with silicone rubber on one side; 2.It is suitable to protect soft hoses and cables.
GF2034	Glass Fiber Ladder Tape		<ol style="list-style-type: none"> 1.Texturized fiberglass ladder is specially used in flange jointing with bolts; 2. Thickness: 0.8mm~5.0mm, width:20mm~300mm
GF2035	Glass Fiber Tadpole Tape		<ol style="list-style-type: none"> 1.Texturized fiberglass tadpole is effective sealing on light metal flanges; 2.It is suitable for applications where closures rest on the packing bulb; 3.It can be treated with graphite on request.
GF2036	Glass Fiber Mesh Tape		<ol style="list-style-type: none"> 1.Glass fiber self-sticking tape takes glass fiber net cloth as the basic material which is then compounded by not-dry pastern liquid; 2.This product has strong self-sticking ability and sticking ability; 3.It's an ideal material of construction industry's wall crack and top crack preventing.

Glass Fiber Tapes

Code:KXT GF203

Range of Glass Fiber Ropes

Code	Name	Photo	Description
GF2021	Glass Fiber Square Rope		1.Braided from texturized glass fiber yarn; 2.Used for the material of keeping warm, insulating against heat, etc 3.Excellent substitute for asbestos; 4.Metallic wire reinforced on request. 5.For sealing coke furnace, stove and boiler burner, chimney door, pump and valve, exchanger, etc.
GF2022	Twisted Glass Fiber Rope		1.Twisted from texturized E/C Glass fiber yarn; 2.Used in low pressure in ingot moulds, pipe insulation, thermal shields, etc.
GF2023	Glass Fiber Round Rope		1.Round braided from texturized glass fiber yarn, with glass fiber or ceramic fiber core; 2.Used for the material of keeping warm, insulating against heat, etc; 3.Excellent substitute for asbestos; 4.Metallic wire reinforced on request; 5.For sealing coke furnace, stove and boiler burner, chimney door, pump and valve, exchanger, etc.
GF2024	Graphite Glass Fiber Rope		1.Round braided from texturized glass fiber yarn treated with graphite; 2.Used for the material of keeping warm, insulating against heat, etc. 3.Excellent substitute for asbestos; 4.For sealing coke furnace, stove and boiler burner, chimney door, pump and valve, exchanger, etc.
GF2025	Glass Fiber Rope With Rubber		1.Texturized fiber glass braided round rope; 2.Coating with red silicone rubber for wrapping exhaust.
GF2026	Glass Fiber Lagging Rope		1.Same as Kaxite CF102-L Ceramic fiber lagging rope; 2.Outside over braided with fiber glass yarns, inside filled with cut strip of ceramic fiber blanket; 3.Over braided mesh can be both open and close mesh; 4.Excellent substitute for asbestos rope.
GF2027	Glass Fiber Knitted Rope		1.Terturized fiber glass knitted rope with fiberglass core; 2.Excellent substitute for asbestos lagging rope; 3.Can be treated with graphite; 4.Used as filler of grooves, sealing of oven, furnace or boiler doors.
